Venus® Bulk Fill

Flowable posterior bulk fill composite

Faster, esthetic posterior restorations. Simplified.

Venus® Bulk Fill is an advanced posterior restorative solution that provides dentists with a faster, easier technique than incremental layering. The result—a reduction in chair time, and a more efficient and cost effective restoration.

82% of surveyed dentists claim a **SAVINGS UP TO 10 HOURS OF CHAIR TIME** per month when they use a bulk fill material*

What makes Venus® Bulk Fill so efficient?

- **Easy** placement technique in 4mm increments—no longer a need to fill with several 2mm layers
- **Self-adapting** handling allows for ideal cavity adaptation—**eliminating steps** prior to final cure
- **Compatibility** with all methacrylate based bonding adhesives and composites
- **Simple dispensing and placement** via a convenient Pre-Loaded Tip (PLT)
- **Long working time** compared to other flowable bulk fill materials
